

Overview (Hero Section)

- **Current Text in Layout:** "Electro Hub", "1720X800"
- **Aapka Content:**
 - **Main Title:** VIANTA
 - **Subtitle:** Artistry in Production | Crafting Visual Stories that Convert
 - **Role/Details:** Web Design • Production House • Digital Strategy
- **Image Description (Replace "1720X800"):**
 - **Description:** A professional, sleek photo-realistic mockup of a premium 16-inch laptop (like a MacBook Pro). The laptop screen is the central focus, displaying a vibrant, high-end "home screen" for Vianta. The design is split: the left side has the Vianta logo in a strong serif font with "ARTISTRY IN PRODUCTION" text, and the right side is a dynamic collage of behind-the-scenes film set moments and finished product shots. The laptop should be set on a polished concrete desk with a studio camera lens and a coffee mug in the soft-focus background.
 - **Key Prompt Elements:** Premium laptop mockup, full-screen view, high-end web design interface, vibrant creative production collage, cinematic lighting.

Project Overview Section

- **Current Text in Layout:** "Project Overview", text block, dates.
- **Aapka Content:**
 - **Main Title:** Project: Vianta Digital Presence
 - **Text Block:** Vianta, a creative production powerhouse, needed a digital home that matched their caliber. We created a website that isn't just a portfolio, but an immersive experience. The goal: to merge raw artistic passion with business professionalism, showcasing their full spectrum of video production, animation, and creative services.
 - **Details List (Keep the structure, change text):**
 - **Client:** Vianta Production House
 - **Industry:** Media & Entertainment
 - **Deliverable:** UI/UX & Web Design
 - **Platform:** WordPress (Custom)
 - **Timeline:** 10 Weeks
 - **Tools:** Figma, Adobe CC, Elementor Pro

Process / Services Grid (Three Columns)

- **Current Text in Layout:** "573X859", "572X859", "573X859"
- **Aapka Content & Images:** (Treat these as specific features/services designed for the web)
 - **Column 1 (Left): Pre-Production & Planning**

- **New Image description:** A top-down shot of an iPad Pro placed next to a stack of storyboards. The iPad screen is active, showing a project management 'timeline view' for a film shoot, with budget figures and team member icons visible.
- **Column 2 (Middle): Production & Execution**
 - **New Image description:** A close-up, angled mockup of a dual-monitor setup (e.g., 27-inch monitors). Both screens display custom web-based dashboards: one side is a production status update (with camera feed previews), the other is a task list for the crew.
- **Column 3 (Right): Post-Production & Delivery**
 - **New Image description:** A photorealistic mockup of a modern editing bay. The central focus is a powerful desktop screen showing a sleek interface for a cloud-based 'client review' portal, where a video file is loaded with feedback pins.

Case Study: The Challenge (Left Image, Right Text)

- **Current Text in Layout:** "588X660", "The Challenge", text block.
- **Aapka Content:**
 - **Main Title:** Problem: A Mismatched Presence
 - **Text Block:** Vianta was producing national-level work, but their existing online presence felt disjointed and dated. It failed to communicate the *scale* of their productions and the *depth* of their multi-talented team. They needed a site that looked like a 'million dollars' to secure clients with similar budgets.
- **Image Description (Replace "588X660"):**
 - **Description:** A creative conceptual image. A cracked, dated looking laptop screen on the left, next to a collection of high-end camera gear that is much larger than it. The laptop screen shows a basic, cluttered website with "under construction" elements. A spotlight is hitting the high-end gear.

Case Study: The Solution (Left Text, Right Image)

- **Current Text in Layout:** "The Solution", text block, "593X660".
- **Aapka Content:**
 - **Main Title:** Solution: Immersive Visual Storytelling
 - **Text Block:** We designed a dynamic, 'show-don't-tell' website with a core narrative structure. Each page is an experience:
 - An interactive video reel header.
 - A project showcase that functions like a cinematic timeline.
 - Deep profiles on services to showcase true breadth.
 - Integrated client portals.
- **Image Description (Replace "593X660"):**
 - **Description:** The same cracked laptop from "The Challenge" has now been transformed into a sleek, functional laptop mockup (like the first one), but this

time it's wide open and shining. It displays the Vianta project showcase page (a clean grid of cinematic project thumbnails with professional typography). A production slate ("SCENE: VIANITA", "TAKE: FINAL") rests next to it, perfectly lit.

Final Showcase (Large Bottom Images)

- **Current Text in Layout:** "947X1264", "950X1264", "1902X1268".
- **Aapka Content:** (Focus on results and breadth)
 - **Large Box 1 (Left, 947X1264): Services Deep-Dive**
 - **New Image description:** A creative vertical 'exploded view' of a smartphone mockup, with three distinct 'screens' hovering above it.
Screen 1: The 'Video Production' service page (dynamic and bold).
Screen 2: The 'Animation & VFX' service page (sleek and modern).
Screen 3: The 'Strategy & Distribution' page (clean and data-focused).
 - **Large Box 2 (Right, 950X1264): Dynamic Reel Player**
 - **New Image description:** A dynamic shot of a large, high-end television screen (65-inch) mounted on a wall. It is active and playing Vianta's high-octane production reel (fast-paced cuts of multiple client projects). The surrounding wall has minimal art-meets-business decor.
 - **Final Large Box (Bottom, 1902X1268): Total Brand Ecosystem**
 - **New Image description:** A massive, high-resolution panoramic composite shot of multiple devices all synched. Center: A laptop with the main home page. Left: An iPad with a project-specific case study page. Right: A phone with the 'Contact & Hire Us' page. Surrounding all of them are physical objects related to Vianta: a film slate, a high-end microphone, a data server rack, and a storyboard book. This image represents the comprehensive digital strategy.
